Universal Distinct Element Code

Online Manual Table of Contents

USER'S GUIDE

[Frontispiece](#)

[Terms and Conditions](#)

[Precis](#)

[Table of Contents](#)

[Section 1 : Introduction](#)

[Section 2 : Getting Started](#)

[Section 3 : Problem Solving with *UDEC*](#)

[Section 4 : *FISH* Beginner's Guide](#)

[Section 5 : Miscellaneous](#)

THEORY AND BACKGROUND

[Frontispiece](#)

[Precis](#)

[Table of Contents](#)

[Section 1 : Background – The 2D Distinct Element Method](#)

[Section 2 : Factor-of-Safety Calculation](#)

[Section 3 : Energy Calculation](#)

CONSTITUTIVE MODELS

[Frontispiece](#)

[Precis](#)

[Table of Contents](#)

[Section 1 : Block Constitutive Models](#)

[Section 2 : Continuously Yielding Joint Model](#)

[Section 3 : Barton-Bandis Joint Model](#)

[Section 4 : Writing New Constitutive Models](#)

SPECIAL FEATURES – STRUCTURES/FLUID FLOW/THERMAL/DYNAMICS

[Frontispiece](#)

[Precis](#)

[Table of Contents](#)

[Section 1 : Structural Elements](#)

[Section 2 : Fluid Flow in Joints](#)

[Section 3 : Thermal Analysis](#)

[Section 4 : Dynamic Analysis](#)

CREEP MATERIAL MODELS

[Frontispiece](#)

[Table of Contents](#)

[Section 1 : Creep Material Models](#)

VERIFICATION PROBLEMS

[Frontispiece](#)

[Precis](#)

[Table of Contents](#)

[Cyclic Loading of a Specimen with a Slipping Crack](#)

[Sliding Block between Two Slightly Skewed Rigid Walls](#)

[Thick-Walled Cylinder Subject to Internal Pressure](#)

[Response of an Unlined Circular Tunnel in a Biaxial Stress Field](#)

[Circular Tunnel Problems](#)

[Elastic Behavior of a Jointed Medium](#)

[Crack Shear by Reduced Friction](#)

[Rough Footing on a Mohr-Coulomb Material](#)

EXAMPLE APPLICATIONS

[Frontispiece](#)

[Precis](#)

[Table of Contents](#)

[Seismic-Induced Groundfall](#)

[Open Stoping Using Vertical Retreat](#)

[Tunnel Support Loading](#)

[Gravity Dam: Fluid Flow and Dynamic Loading](#)

[Cement Grouting Simulation](#)

[Thermomechanical Analysis of a Waste Emplacement Drift](#)

[Inflow into a Tunnel](#)

[Flow through a Jointed Rock Slope](#)

[Flow from a Borehole in a Biaxial Stress Field](#)

[Influence of the Placement of Backfill in a Deep Longwall Excavation](#)

[Shotcrete and Cable Support](#)

[Blocks Bouncing down Slope](#)

[Step-Path Failure of Rock Slopes](#)

[Hydraulic Fracturing Simulation](#)
